PROJECTS

Green Routine — LaunchCode Capstone Project
A web application that empowered users to sign up for and create daily challenges focused on environmental initiatives, highlighting the impact of their actions
- Developed a search feature that filters challenges by keyword, category and difficulty.
- Led the creation of a leaderboard to display user rankings
- Built a custom point system ("Leaves") to track user activity and carbon impact using the Carbon Interface API
- Set up database connections to support global and personal challenges.
- Full Project Tech Stack: React, C#, MySQL, Carbon Interface API

EXPERIENCE

Social Media Content Editor
January 2024 - December 2024 | Expedition Subsahara
- Edited and produced branded videos using Premiere Pro for social media campaigns

Program Manager
February 2023 - July 2023 | Film Camp USA
- Managed curriculum, staff meetings, parent communication, and student activities; authored short film script for student actor
